Transfer out Hotel – Airport Boarding formalities and flight to the Galapagos Islands Boarding the Coral II

In the morning, a private transfer will be organized to Guayaquil airport for your flight to the Galapagos. You should then have your luggage inspected in the Galapagos Biosafety Agency (GBA.) To prevent the unintentional introduction of invasive species that threaten the islands' biodiversity. This same action will be repeated on the docks before any transport between the different islands of the archipelago. Before landing, the aircraft cabin will be fumigated with a WHO-approved product, to eliminate any organisms that may have passed through despite previous inspections. The Galapagos archipelago offers a wide range of experiences to make the most of this unforgettable region. The varied panoramas range from heavenly beaches to green mountains and impressive volcanic landscapes. The fauna of the islands is incredibly rich, whether on land, in the ocean or in the air : turtles, iguanas, sea lions, stingrays, sharks, penguins, blue-footed boobies and red-footed boobies, all of which you can observe at close quarters! You'll be picked up at the airport by your guides. A short bus ride and you're aboard the M/V Coral Yacht. However, if you move a little further away from the city, you'll love the island's impressive natural attractions on the coast and in the highlands. The island abounds in beautiful beaches, reserves where giant tortoises roam free, massive volcanic craters and secluded natural pools where you can dive. Its wildlife is varied: land and sea iguanas, sea lions, blue-footed boobies and much more! PRIVATE VISIT TO UPPER PART OF SANTA CRUZ Your local guide will be waiting for you as you disembark the ferry for your first visit: the upper part of Santa Cruz. You'll enjoy a delicious lunch on a ranch, then head to the "pozas" where you can see the emblematic giant Galapagos tortoises. Afterwards, you'll take a short walk to the lava tunnel, then discover the various projects run by the ranch: a 60-yearold trapiche that extracts sugarcane juice to make molasses and brandy, as well as the entire coffee process, prepared in the rustic manner. Enjoy cane juice, alcohol and organic coffee! Finally, you'll be driven to your hotel in Puerto Ayora, the island's main town.
